>5%

Target distribution

>7%

Target IRR

Fund strategy

The Fund invests in commercial real estate on the most attractive science parks in the Netherlands by acquiring existing and newly built assets with an attractive risk-return profile. The Fund makes individual investments, as well as through dedicated partnerships with institutions such as universities. Currently the Fund has an exclusive partnership with the universities of Delft and Twente and aims to further expand its partnership network. ASR DSPF has an impact target regarding the Dutch knowledge and education sector by providing space to companies which benefit local science park ecosystems and with a direct link to the UN PRI Impact Markers and SDGs.
